**RE: Data Response And Cyber Liability Coverage Form Revision**

Effective April 1, 2025, we are revising our General Liability Data Response And Cyber Liability Coverage forms.

These revisions are meant to clarify the language of the intended coverage in these cyber endorsement forms.

This revision includes clarifying the exclusion for War and definition for Computer System.

It also adds the following exclusions: Widespread Event and Operating System Event, and definitions: Act of Cyber Terrorism, Application Program, Attack Vector, Cyber Operation, Essential Service, Impacted State, Operating System Event, Related Incident, War, Widespread Event and Your Computer System.

A copy of each is available in Agency Portal – Documents and forms:

- Data Response and Cyber Liability Coverage Form (HCG 80 03 07 24) ([click here](#))
- Data Response and Cyber Liability Plus Coverage Form (HCG 80 04 07 24) ([click here](#))
- Data Response And Cyber Liability Notice to Policyholders (CG FLYR 00 08 08 24) ([click here](#))

Should you have any questions, please contact your Commercial Lines Underwriter.

Thank you for your partnership and continued support.
