Prospective clients for FICOH may call the vendors listed below. **They need to ask for the “FICOH or First Insurance inspection package” and provide the company representative with our system generated quote number to receive the discount.**

FICOH’s Home Inspection Network features a top provider on each island that provides preferred pricing to our potential clients. Their inspection reports will provide us with the information we need and nothing extra. **Each provider has its own pricing structure but has rates well below traditional home inspections in addition to a special FICOH discount.** In addition, if our full inspection is not required, the scope can also be narrowed to ala carte components such as roof, plumbing or electrical for example. Please know this is to provide your customers with an option, but they are free to use any licensed provider of their choosing.

Should you have any questions, please contact your Personal Lines underwriter. Thank you.
