Subject: OCIPs - Bid Certification form from Marsh

You will recall at the last OCIP training, we reviewed the form Marsh is sending to all contractors participating on their clients' OCIPs. Here is an updated form that they have begun sending. As advised previously, do not sign these forms without modification. The following should be done:

1. Cross out #3 as previously advised.
2. #4 okay as long as it is true.
3. Cross out #5

Please refer to the attached form with the modifications that should be made before returning to Marsh.

Dixon: Please post this on the intranet under Atlas procedures "OCIP Bid Certification (Marsh form)".

Nadine

I would say #4 is okay if it is true but I would not certify #5 since we don't know whether payrolls or other items are accurate.

Mikes: Have you seen this new form? How are you handling?

Subject: Bid Certification C C (2)

Hi Nadine,

Attached is a copy of the Bid Certification form that we are being asked to complete. I know that we need to cross out item #3 and insert our wording that we do not certify to any third party that the contractor is in compliance with the insurance requirements.

It looks like there are a couple of other paragraphs that were added to the form since the class that you did regarding OCIP/Wraps.

Are we okay with the rest of the form as long as we do the cross out and fill in on item #3?

Thanks,
Richard
