

ReferenceConnect Mobile Access

Have you ever needed information from ReferenceConnect when you're on the road? The good news is that it's now available on your mobile device!! Just launch the browser, use the same login as you do from the office and ReferenceConnect automatically detects you're connecting from a mobile device. More importantly, it pulls up a **mobile-optimized** version for easy navigation on the screen (versus viewing it as a regular webpage with lots of scrolling).

Here's the URL you can type onto your mobile browser:

<https://www.silverplume.com/SPOnline.NET/Login.aspx>

Signon Instructions in Pueo (see pg 3) -
